Curriculum Vitae

I am highly motivated and possess a strong ability to learn and implement that knowledge in practice. I use my own initiative and am not afraid to voice my opinions. During A level art I was the first student to pioneer the use of computers in art exams in the UK.

Design and technology are both passions of mine, I constantly try to learn new programs in order keep up with technology in order to realise my ideas and vision.

My general hobbies include tennis (county player), travelling, sailing, skiing, photography (landscape and portraiture), gathering exciting design examples, typography and keeping up to date with web in general.

Skills

Concept design, team player, team leader, communication skills, quick learner, typography understanding, photography, Creative Suite.

Layout design from conception to getting work to print. Strong understanding of how to work with brand guidelines.

Working and creating with style guides as well as working with master pages. Accuracy and attention to detail are of paramount importance in all my work.
